Animal Comprehension

Read the short passage and answer the questions.

Giraffes

Giraffes are the tallest animals on land. A giraffe can be found in grasslands or open woodlands. Their long necks help them to eat leaves from tall trees. Giraffes also have small horns on the top of their head. These horns help to protect their head in a fight.

1. Where can a giraffe be found?

2. Why are their long necks important?

3. Why do giraffe's have horns?
